

Products of Tompkins-Kiel Marble Company Stone Catalog

Distributors of Marble – Stone
505 Fifth Avenue, New York
Chicago – San Francisco

*Note: This publication is presented on the Stone Quarries and Beyond web site.
<http://quarriesandbeyond.org/>*

The following pages contain images of the Tompkins-Kiel Marble Company Marble-Stone products catalog. There is no date of publication in the book, although it was probably published in the early 1900s. Similar Tompkins-Kiel product catalogs that I found on the Internet are listed as being published circa 1915. *(If you can ascertain the date of this catalog, I was like to hear from you.)*

Owners of these catalogs were initially issued a set of photographs to which more stone photographs were added over time. Once the owners of the books started adding new photographs, the books would no longer remain in the same order as there are no page or plate numbers, and they might not contain the same color photographs because some owners may have chosen not to add all of the photographs or they may not have received all of the new photographs. *(I have included an image of what the pages that present the stone photographs look like in the book and a transcript of the names of the stones included in this particular catalog after the back cover.)*

Time and usage has caused this book to curve backwards on the top and bottom edges, so these margins may appear distorted in the scans. Also, the linen upon which the colored photographs are mounted has unraveled on many of the pages leaving many threads hanging loosely about the edges of the pages. After the back cover I have included a scan of the back of one of the pages so you can view the appearance of the linen pages.

If you are interested in reading more about these stones, you will find some of them listed in the “Names and Origins” section of the Stone Quarry and Beyond web site or on web sites such as the “Stone Album” on the FindStone.com website (URLs below).

http://quarriesandbeyond.org/name_and_origion/name_and_origin.html

PRODUCTS OF
TOMPKINS-KIEL
MARBLE COMPANY

505 FIFTH AVENUE
NEW YORK
CHICAGO SAN FRANCISCO

IT IS DIFFICULT TO FURNISH A REPRODUCTION OF
MARBLE WHICH WILL GIVE A TRUE IDEA OF ITS
COLORING AND VEINING. BEING A NATURAL PRODUCT
IT IS NOT UNIFORM THROUGHOUT AND VARIES IN
ALMOST EVERY SLAB. WE THEREFORE TENDER THESE
SPECIMENS MERELY AS AN INDICATION OF OUR
MARBLE AND STONE.

A WORD ABOUT OUR BUSINESS
AND
A SUGGESTION THAT MAY INTEREST YOU

THE following pages are specimens of marble and stone from a few of the quarries of which we handle the entire output.

We act as wholesale distributors of a varied and complete stock of domestic and imported marble and stone.

We dispose of this stock direct to independent manufacturers who own and operate finishing plants and in no way do we compete with them. The purpose of this book is to lay before you an easily handled range of specimens as faithfully rendered as the printing art can produce.

It will serve to acquaint you with the colors of the most popular marbles in our line and will enable you to work out color combinations suitable for your purpose. From time to time we acquire new agencies and have reproductions made of the product for this book. New pages will be mailed you when ready.

Our complete and intimate contact with the entire marble and stone industry may enable us to cooperate with you when considering marble for new work.

We would be glad to hear from you at any time.

OUR MOTTO

IF IT'S MARBLE, WE EITHER HAVE IT, OR WILL GET IT, OR IT ISN'T IN THE COUNTRY

The above image is of the back of one linen pages that the photographs in this book are mounted upon. Due to age and usage the edges of many of the pages are frayed as in the image above.

Below you can see an example of one of the color photographs as they were originally presented in this book. For the other scans presented earlier in this document, I decreased the size of the margins so as to fit the largest photo possible of the stone images on each page. But I wanted to show you what the pages looked like originally.

You will find the list of stones presented in this book on the next page.

***List of Stones Presented in the copy of the
Products of Tompkins-Kiel Marble Company Stone Catalog***

(Please note that I have listed the same stones together, but the previous owner of the book did not always place stone names together so you might have to look around a little to find the correct photos in the book. Unfortunately, there are no page numbers or plate numbers to follow – only the names of the stones located beneath each stone photo. Peggy B. Perazzo)
