## → ❖ TO THE TRADE. ❖ ←

---

WE congratulate you upon the business prosperity of the past year, and tender our thanks for the liberal share of trade given us, and enter upon the labors of the new year with the fullest confidence that we can now serve you better than ever before. We remind the trade that we have the entire product of all the quarries of the Sutherland Falls and Rutland Marble companies, and that all of those quarries are producing a greater variety, and better marble than at any time in the past, and that of mills, machinery (whether for producing marble in the rough or finished state), and men skilled in the work of the different departments, we have an ample supply, and the best. If the trade demands a *veined* marble for monumental or building work, we confidently assert that no other marble of that variety is equal in beauty to the Sutherland Falls, or so well adapted to stand exposure in our climate. If a white or mottled marble, a marble of easy and safe working qualities, of proven durability, and of superior beauty when finished is desired, the product of our quarries of Rutland marble will fully satisfy such demand. In addition to the above, and to supply a fast growing demand for blue marble, we are raising blocks from two quarries just opened, the product of which, added to our previous supply of blue, will afford us a large amount, and several new varieties of this kind of marble. The newly discovered blue is of superior working qualities, quite dark or dark mottled in color, and well adapted for either monumental or interior work. All of our blue will receive a very high polish and can be traced with fine effect. We refer to the following price list, which has not in the aggregate been increased from the prices of last year. The prices given, in consequence of the enhanced cost of labor and supplies, cannot well be afforded, but they have been retained, trusting that increased sales will compensate for low profits.

Soliciting your orders, whether large or small, and assuring you that no labor on our part will be spared to serve every one faithfully and well, we are,

Your obedient servants,

VERMONT MARBLE COMPANY.

## TERMS.

1st. Settlements are required within 30 days from date of invoice—by cash less 3 per cent—or by bank note in full at 4 months, with exchange on New York in either case; otherwise bills will be treated as due from date of Invoice and subject to sight draft.

2d. All claims for errors in measurement or for unsoundness must be made in 20 days from the receipt of the marble.

3d. All marble will be carefully loaded on the cars free of charge and shipped the day the bill is dated, after which it will be considered as delivered to the purchaser. We are not responsible for damages or delays in transportation, unless caused by our mistake, but we will cheerfully assist in collecting overcharges if vouchers are promptly sent us.

4th. A discount of 5 per cent will be given on *car load* lots of 20,000 pounds or more in one order—this to be deducted from the invoice. This in lieu of all other discounts except the regular cash discount of 3 per cent.

5th.  All new customers of whose responsibility we are not advised will please give reference at the time of giving their orders.

## FREIGHTS.

Freights from all of our mills alike, and guaranteed as low as can be obtained by any other company or firm. Special rates obtained on application and through bills of lading sent.

Send original (not duplicate) receipted freight bill when aid is desired in obtaining overcharges above special rates.

## BUILDING MARBLE.

Numerous tests, and over fifty years of exposure has proved Vermont Marble to be the best in the world for any use where durability under exposure is desired.

For building purposes we recommend first our

### SUTHERLAND FALLS MARBLE.

It is the strongest and most durable, and its color the most satisfactory. It is not a plain white, but is slightly clouded so as to give a pleasant relief to the eye. It is so fine, hard and close-grained that it does not absorb the impurities of the atmosphere, and dust does not stick to it as to other kinds of stone and coarser marble, but it always looks bright and clean.

If you prefer a marble of different color we have the best of

### RUTLAND MARBLE,

both white and colored. For corner blocks, keystones, skewbacks, arches, etc., white and blue marble used in combination produce a very pleasing effect.

And Rutland white and blue marble for mantles and other interior and decorative work has no superior.

---

We call especial attention to the large *variety* as well as the *amount* of Monumental Marble produced by us, and from which we select stock for finished work. We have two large and completely equipped establishments for finishing marble; one at Sutherland Falls and the other at Center Rutland; both of which have for several years had the reputation of sending out the best of work; and we assure those favoring us with their orders that we shall spare no pains to fully sustain that reputation.

We have improved our old Designs and added new ones, and now hand you the Largest and Best Assortment in the market.

Nearly one-third of our designs are new, and about forty of them are of Square or Cottage Monuments.

We will finish from designs of other dealers at their prices, and make estimates on anything you may send us.

We take special pains in matching the different parts of finished Monuments. You will be more certain of a perfect match if we finish the entire Monument than if you order part of it in the rough, though we will do the best we can in either case.

Customers, when ordering of us, are requested to state whether Sutherland Falls or Rutland Marble is desired, and what grade; and if finished, whether glossed or pumiced; also, to keep an exact copy of their order; when an urn is ordered, UNLESS OTHERWISE DIRECTED, our rule is to send a gloss-finished urn.

**“To The Trade”**  
**Section of *Vermont Marble Company Producers and Finishers***  
***of Sutherland Falls and Rutland White and Blue Marble***  
**1882 Price List and Key for the Trade Only**

“We congratulate you upon the business prosperity of the past year, and tender our thanks for the liberal share of trade given us, and enter upon the labors of the new year with the fullest confidence that we can now serve you better than ever before. We remind the trade that we have the entire product of all the quarries of the Sutherland Falls and Rutland Marble companies, and that all of those quarries are producing a greater variety, and better marble than at any time in the past, and that of mills, machinery (whether for producing marble in the rough or finished state), and men skilled in the work of the different departments, we have an ample supply, and the best. If the trade demands a *veined* marble for monumental or building work, we confidently assert that no other marble of that variety is equal in beauty to the Sutherland Falls, or so well adapted to stand exposure in our climate. If a white or mottled marble, a marble of easy and safe working qualities, of proven durability, and of superior beauty when finished is desired, the product of our quarries of Rutland marble will fully satisfy such demand. In addition to the above, and to supply a fast growing demand for blue marble, we are raising blocks from two quarries just opened, the product of which, added to our previous supply of blue, will afford us a large amount, and several new varieties of this kind of marble. The newly discovered blue is of superior working qualities, quite dark or dark mottled in color, and well adapted for either monumental or interior work. All of our blue will receive a very high polish and can be traced with fine effect. We refer to the following price list, which has not in the aggregate been increased from the prices of last year. The prices given, in consequence of the enhanced cost of labor and supplies, cannot well be afforded, but they have been retained, trusting that increased sales will compensate for low profits.

“Soliciting your orders, whether large or small, assuring you that no labor on our part will be spared to serve every one faithfully and well, we are,

“Your obedient servants,

“Vermont Marble Company.”
