FINISHED MONUMENTAL MARBLE

We offer the following finishes:—HONE, CRYSTONE, SANTONE, TOOLED and POLISH. We also offer a special finish for Bottom Bases and Markers called Duratex. It consists of a deeply stippled surface with heavily rounded edges and offers greater protection than ordinary finishes. Other finishes may be supplied upon special request.

It is recommended that designs be ordered in the finishes listed. Other finishes may be ordered and our price will be adjusted accordingly, but we will not be responsible for the effect of such alteration upon the appearance of the design.

Monumental Finishing Rules

1. Boxing of graded stock and crating of bottom bases are included in the prices of finished monuments.
2. The backs of designs shown herein are plain, unless otherwise noted.
3. Dowel holes will be drilled in all tablet designs 6 inches or less in thickness when ordered with bottom bases.
4. Aluminum containers are furnished with our listed vase designs and are recommended for all vases, particularly when used for planting. We supply containers only in sizes listed on page 34.
5. Where inscriptions are shown on photographs or cuts, such lettering is not included in the list price. Tracing of epitaphs, where shown is done without extra charge.

Bottom Bases

Bottom bases of all finished work will be of Duro grade with sanded surface, unless otherwise listed or ordered.

Selected Stock (S.S.) bottom bases are listed with certain designs for better matching. Such bases may be ordered in Crystone, Santone or Tooled finishes. If design is ordered Hone or Polish finish with S.S. bottom base, the Crystone finish will be used on the bottom base.

For prices on finished bottom bases see page 35.

Estimates on any work not quoted in this list will be furnished upon request.
